TEMA 2 MN

Pentru rezolvarea tuturor cerintelor acestei teme, am urmat instructiunile fiecarui task pas cu pas, acestea fiind destul de detaliat prezentate. Din punctul meu de vedere, task-ul 6 a avut o complexitate mai ridicata fata de celelalte.

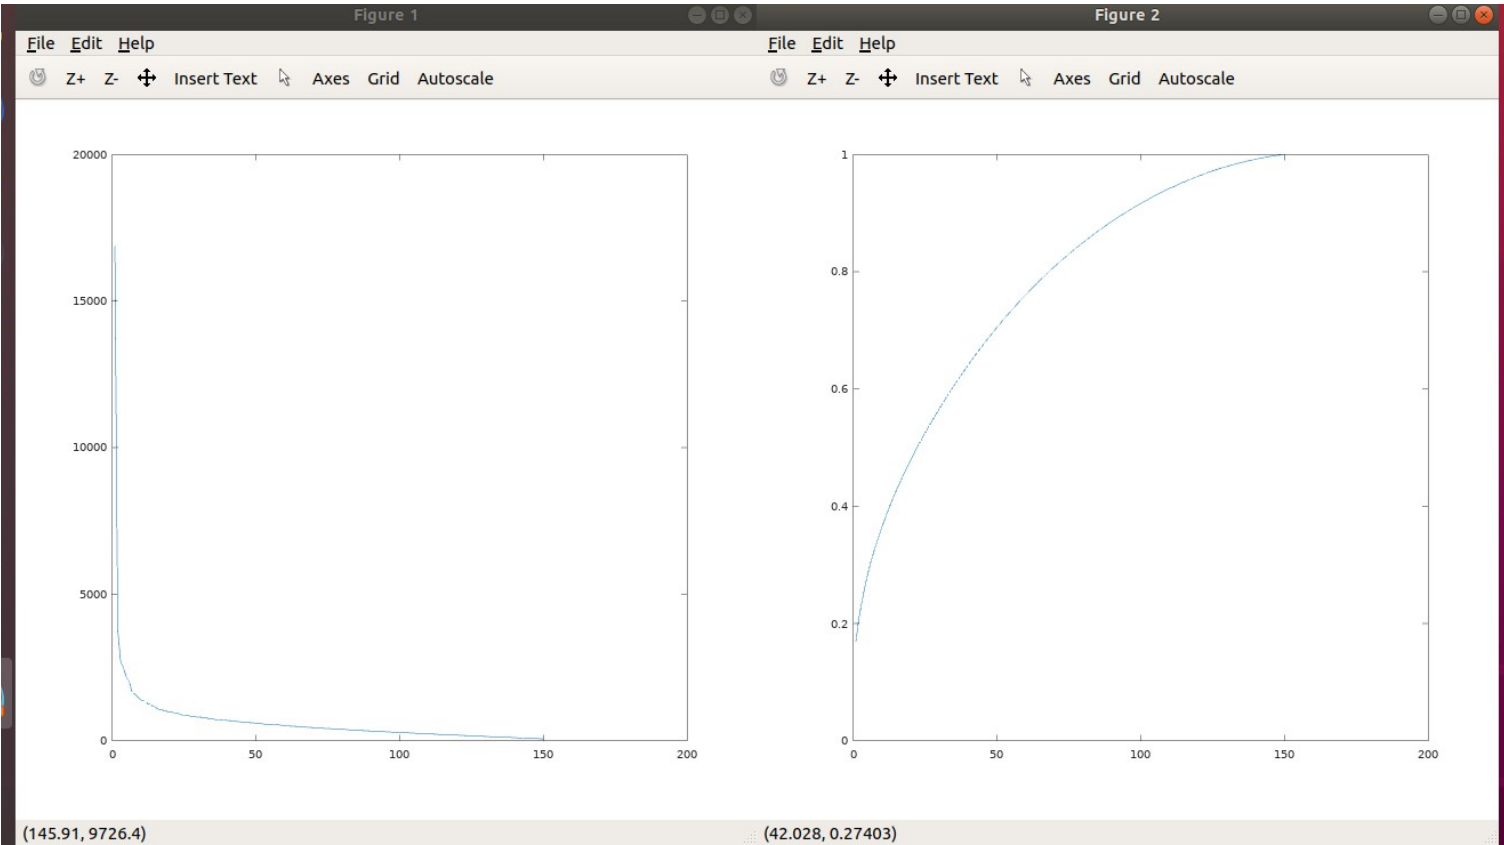

Graficele corespunzatoare task-urilor 2 si 5 se obtin in urma inlocuirii caii catre imagine in cod, pentru fiecare imagine in parte.
